(CONTINUETION

(CONTINU

A <u>instanting</u> enables an owner of land bordering a natural lake or stream to take and use wells, on the riparan land. Riparian land must never have been severed from the sources of supply by an eservaning partial without reservation of the charten the natural fine natural fine natural from the severed parcel. Concernly, a charten user must she made supply with other users. Riparian rights may be used to chief the later use of to divert water which originalize in a different watershed, water previously stored by others, refurn of a stream but may natural suce or to diver the natural sucem system.

An engine right elequired for use of water on non-tender find and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not reflect by riparian water users. Since 1914, here appropriations have been required to obtain a permit and bosinse from the State. Appropriative rights can be granted to waters foreign, to the statem system.

figures of Weter Differsion and Use must be filled by aparter and pre-1914 appropriative water training of a statement (1) provides a record of water the State the State to facility and users if someone proposes a new appropriation users if someone proposes a new appropriation user and states and (3) assists the State to determine if additional water is exempted for future appropriations.

The above discussion is provided for general information. For more appeals information concerning water rights, please contact an attorney or write to this office. We have several particulated available. They include: (1) Spatienems of Water Divergion and Use, (2) information of Water in California.
